Video Conference Upgrade for VBS/WCBS

\$100.00

An External Video Scaler for use with Projector Connector, Type B Transmitter. Can be used to support a 2-way audio/video conference or "on the scene reporter" interview function when used in combination with the Video Genie. When used with Teacher's AIDE or EZ-Teach Silver, it gives you the ability to connect a DVD or other video source to the lab and broadcast it to the entire class.

Video Conference Upgrade Specifications:

Video standards: NTSC/PAL/SECAM (for Composite and S-video)

Resolution output: 640 x 480, 800 x 600, 1024 x 768, 1280 x 1024/1440 x 960 (60 Hz)

Local Monitor support: VGA/SVGA/XGA/SXGA (VGA input port required)

Input ports: coaxial (RF), composite video, S-video, composite audio, PC sound card line-out and 7.5 V / 1 A power port

Output ports: HD15 (VGA) and 3.5mm stereo output for connection to the Projector Connector Type B transmitter.

No driver or operating system requirements; compatible with Windows and Mac computers
