Teacher's AIDE Dual Student Box

[Call for Pricing](#)

The Teacher's AIDE Computer Supervisory System is a hardware-based broadcasting system designed to improve instructional productivity in a computer lab setting. This improvement is realized through the delivery of a powerful set of tools that allow the instructor to observe, interact, and control practically every aspect of the computer training lab.

An investment in Teacher's AIDE will make any computer training lab more efficient and effective, regardless of the subject matter that is being taught. This promise of improved instruction is delivered by giving the instructor the ability to instantly focus students' attention, distribute information and respond to the need for instruction.

For more information or to see a demonstration of Teacher's AIDE, contact your authorized dealer.

CSS-SB1082B - Supports 2 Students
